

Congratulations to all of the May/June 2017 ARC awardees

Laureate Fellowship

Differentiating the cognitive basis of unproductive vs productive worry

Prof Colin MacLeod, School of Psychological Science

\$2,295,215

Future Fellowships

Phosphorus-efficient Australian plants: applications for crop improvement

Dr Kosala Ranathunge, School of Biological Sciences

\$757,000

Quantum chemical methods: From wavefunction to density functional theory

Dr Amir Karton, School of Physics

\$880,000

Linkage Projects

Ecohydrologic functioning of ephemeral streams

Dr Pauline Grierson et al, School of Biological Sciences

\$620,000 – ARC; \$400,000 cash and \$800,000 in-kind from the partner organisations

Evaluating potential static liquefaction of tailings to prevent failures

Prof Andy Fourie et al, School of Civil, Environmental and Mining Engineering

\$630,000 – ARC; \$720,000 cash and \$540,000 in-kind from the partner organisations
